Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Thursday 21 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A cold night with overnight frost and icy patches developing.

This Evening and Tonight:
Remaining dry this evening with some patchy cloud in places. The cloud will move away overnight to leave clearer skies with frosts likely to develop along with some icy patches, especially in the northwest. Minimum temperature -1 deg C (30 deg F).

Friday:
A frosty start, then sunny spells throughout the day and remaining largely dry, but with a chance of an isolated wintry shower in the west. Feeling cold with light winds. Maximum temperature 6 deg C (43 deg F).

Outlook for Saturday to Monday:
Sunny spells and scattered wintry showers on Saturday. Cloudier on Sunday with a risk of rain and snow. Dry and bright on Monday. Cold throughout with frosts and icy stretches.
